Crompton

Terraclor Super X is a combination of two active ingredients: Pentachloronitrobenzene (PCNB) and Etridiazole. Terraclor Super X is a protective soil applied fungicide recommended to be used as a soil treatment by drenching, mechanical incorporation or as an in furrow application in nursery, green houses and field grown ornamentals for the control of various soil-borne and seedling diseases. Diseases controlled by Terraclor Super X include *Fusarium*, *Phytophthora*, *Pythium* and *Rhizoctonia*.

DIRECTIONS FOR USE

Use Terraclor Super X to control soil borne and bulb rot diseases of ornamentals by soil Drench and root dipping respectively. Apply lower rate on light soils. Apply higher rate on Fields with a history of disease problem or during unfavorable weather conditions for rapid germination and growth of seedlings.

COMPATIBILITY: Terraclor Super X is compatible with most commonly used fungicides, insecticides and Other Pesticides but should not be mixed with strongly alkaline or acidic products. In case of doubt it is advisable to carry out a compatibility test before tank mixing.

RE-ENTRY PERIOD: Do not allow workers to enter treated areas during the restricted entry interval of 12 hours.

OPERATOR SAFETY

Irritating to eyes and skin. May cause sensitization by skin contact. Avoid breathing vapours or spray mists. Avoid contamination of clothing, skin, food and feedstuff. Do not eat, drink or smoke when using. Use only in well ventilated areas. When handling, wear protective clothing i.e. rubber boots and overalls eye protection and chemical resistant gloves. Wash thoroughly with soap and water after handling also wash protective clothing before re-use.

STORAGE: FLAMMABLE - Keep away from heat and sources of ignition. Store under lock and key away from children, food and feedstuff. Store in original tightly closed container in a cool, dry place away from sources of ignition.

DISPOSAL: Do not re-use empty containers for any other purpose. Triple rinse and puncture container, dispose off empty containers by burning while avoiding breathing in any smoke generated. Dispose off unwanted product or spillages by burying in deep pits away from watercourses.

ENVIRONMENTAL HAZARDS

Terraclor Super X is toxic to fish and aquatic organisms. Do not apply directly to water or wetlands (swamps, bogs, marshes and waterholes). Do not contaminate watercourses when disposing of containers, equipment wash waters or unused chemical.

FIRST AID INSTRUCTIONS
