1 kg

Mode of Action

Sequestrene® is taken up by the roots and leaves, but the root uptake gives more persistent effect than can be achieved with foliar treatments.

Directions for Use

Sequestrene® can be applied to the roots or to the foliage of all kinds of annual and perennial crops and ornamentals. The treatment can either be curative or preventive. It corrects iron deficiencies and increases the quantity and quality of harvest. Sequestrene® is preferably applied around planting time or any time

Sequestrene® Fe 138 for curative use

Crop Mimea	Sequestrene® Kiasi cha kutumia	Remarks Maelezo
Vegetables Mboga za	g/100 lt. 200-300	Foliar spray Kunyunyizia majani aina mbali mbali
and / na		
Ornamentals Maua	kg/ha. 2.0-5.0 g/m 2.0-5.0	Soil application Kuweka kwa mchanga
Tree crops - Citrus, vines	g/tree for each cm of tree trunk diameter	Do not exceed 0.5kg/tree. Reduce rate by 30-40% in cases of less severe chlorosis
Matunda ya aina mbali mbali		Usizidi nusu kilo kwa mti mmoja. Punguza kiasi kwa 30-40% kama upungufu si mwingi.
Field Crops- wheat, maize	kg/ha 0.5	Foliar spray with sufficient water for full coverage.
Mimea mingine		Kunyunyizia majani na maji ya kutosha
	2.0-5.0	Soil application Kuweka kwa mhanga

when plants are actively growing. Sequestrene® as fertilizer/growth stimulant. Apply 20 kg/ha broadcast or hand sprayed or dry soil incorporated or not. Do not exceed this rate because non-absorbed Sequestrene® 138 Fe is washed out.

Timing

Preventive Use - Apply early in the season either at planting or any time during active growth of the plants. **Curative use** - Ascertain that the chlorosis is a result of iron deficiency. Sequestrene® can be applied curatively any time so long as the environment is conducive to active growth.

Operator Safety

Do not eat, drink or smoke during work. Avoid breathing spray mist and spray dust. Wash hands and face thoroughly before eating, smoking or drinking. Wear protective clothing, i.e. overalls, gloves, facemask, cap, etc, when working with the product. Change and wash clothing before re-use.

User's Risk

The manufacturer warrants the quality of their product so long as it is acquired in the original sealed container. Many factors such as type of soil, weather, type of plant, method of application, may affect the performance of Sequestrene®. The user bears the risk for damage resulting from such factors which are beyond the manufacturers control. The manufacturer declines all liability resulting from improper storage or use of the product.

Kilo 1

Inavyofanya kazi

Sequestrene® huingia kwenye mizizi na majani ya mimea.

Inavyotumika

Sequestrene® inaweza kutumiwa kwa kuweka kwa mizizi au kwa kunyunyizia majani ya aina mbali mbali ya mimea au maua. Sequestrene® inaweza kutumiwa kuponya au kuzuia upungufu wa chuma katika mimea. Sequestrene® inapungua ukosekani wa chuma na huongeza kiasi na ubora wa mavuno. Sequestrene® inapendekezwa kutumiwa wakati wa kupanda ama wakati mimea inakua haraka haraka.

Sequestrene® kama mbolea au ya kuchochea kukua: Weka kilo 20 kwa hekta moja lionezwe kote kote, ama kunyunyizia kwa mkono au kuchanganya na mchanga. Usizidi kipimo hiki kwa sababu Sequestrene® ambayo haitumiki na mimea hupotea bure.

Wakati wa kutumia

Kuzuia - tumia mapema wakati wa kupanda au wakati wowote mimea inakua haraka haraka. Kuponya - hakikisha shida inatokana na upungufu wa chuma. Sequestrene® Fe inaweza kutumiwa wakati wowote mimea inakua.

Usalama wa mfanyi kazi

Usinywe, usile wala kuvuta sigara unapofanya kazi. Epuka vumbi wa marasharasha. Nawa mikono na uso kabla ya kula, kuvuta sigara au kunywa chochote. Vaa nguo za kazi - yaani ovaroli, kofia, glavu - hasa wakati wa kunyunyiza na kupakia Sequestrene®. Badilisha na usafishe nguo ulizovaa kabla ya kuzivaa tena.

Dhamana

Watengenezaji wanathibitisha ubora wa Sequestrene® ukiipata ikiwa furushi yake haijafunguliwa. Hali nyingi hasa zile zinazotegemea hali ya hewa, aina ya mchanga aina ya mimea na namna Sequestrene® inavyotumiwa huweza kuleta uharibifu au kutofaulu kwa Sequestrene®. Yoyote ya hayo yakitokea yatakuwa juu ya mtumiaji. Watengenezaji na wauzaji wanajikinga kwa lawama yoyote kwani hali hizi hazimo mikononi mwao.
